

Non for Profit Organization 120 W Fund raising for educational projects

Objective: Launch of our 1st sponsored program

Since our last trip which took place from May 24th to 31st 2006, a lot of good things happened. But before going any further, 120 W is proud to give you some insights like if you were there with us!

The trip -

If you visit our web site you will see souvenirs of memorable time spent with the group between Eilat, Arad, Jerusalem, Tel Aviv and some others magic and wonderful places, where a great group of people, got much excited during this whole trip. We boarded on a personal bus (with air conditioned!) accompanied with a personal guide who told us all the way stories and historic facts about the country that we all thought we knew so well; we cried, laugh during this journey who took us through a desert more lively than any other place on earth, we got also very hot while admiring with a 50c° the Salomon mines, the Mitzpe Ramon site, we took a fresh breath by jumping from a boat into the red sea, where Egypt, Jordania and Eretz Israel surrounded us and while bathing with colored fishes... Anyway, to better feel and understand these exceptional moments, you should have been there with us! So visit our site and watch some souvenirs

The 1st educative program -

As we announced it in our first newsletter, we identified the municipality of Arad area to help them realize educative programs. After 2 days of work during our trip, and particularly during a diner with the whole group, the mayor and his staff (we were in a Bedouin tent surrounded by a feast that is hard to describe!), we selected a 1st program which brought joy and excitement of a whole college! Indeed, Arad College needed a recreation and study classroom to use during inter classes.

The good news ! -

Well, thanks to donators, (so thanks to you!) we are developing this study room. The municipality, with Arad Colleges' staff is presently finalizing details of this place in order to be a classroom where students could work, read or use the internet for their researches and homework. We should be able to open this new place during our March 2007 visit!

120 W follows its objective, support education and help students to study in the best possible environment.

Others good things.... -

Of course the fundraising should never stop. We are developing an events calendar, where will be programmed our next trips in Israel (for adults, teens, fun and business...) Parisian events such as showing films and photos, conference on school and education...

We are looking forward to see you soon, either in Israel or in Paris during a next happening, and in the meantime, we wish you all a wonderful holidays!

120 W Board

Launch a recreation-study classroom in Arad College

Soon you will be able to follow on our web site the development of this classroom. Photos and testimony will be included; the official launch date with the mayor will also be communicated. If you wish to participate in the development of this class room, (books, cd's, decorative items...) please contact: marieclaire.ruimy@120w.org
